Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

New grounds of rejection

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Gonzalez et al. (US pat 5,831,276).

With respect to claim 1, Gonzalez et al. teach a structure in a phase changeable or chalcogenide memory cell, comprising (see figs. 12 and 12a and associated text):

A bottom electrode 32b having an interlayer dielectric layer 34 thereon, the bottom electrode having a recess therein that extends beyond a boundary between the bottom electrode and the interlayer dielectric (see fig. 12a) ; and

A phase changeable or chalcogenide layer 32a in the recess including a protruding portion of the of the phase changeable layer that protrudes into the bottom electrode beyond the boundary, wherein the phase changeable layer contacts the bottom electrode within the confine of the recess.

Further with respect to claim 1, Gonzales et al. further teach the recess extends beyond the boundary to define a side wall (not limited a vertical side, a concave or convex side also defines a side wall) of the recess that contacts the protruding porton of the phase changeable layer.

With respect to claim 3, Gonzalez et al. further teach the interlayer dielectric layer includes a contact hole with the phase changeable layer therein on the recess. See figs. 12 and 12a and associated text.

Allowable Subject Matter

Claims 4, 5, 6, 8, 9, 10, and 24 are allowed.

Claims 2 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
